PROFESSIONAL SUMMARY

I'm a **Computer Science student at UMass Boston** with a strong ability to **analyze problems, adapt to new challenges, and think critically**. I take a **structured and detail-oriented approach** to problem-solving, always looking for ways to improve efficiency and optimize processes. I enjoy breaking down complex ideas, learning quickly, and finding practical solutions that make an impact.

SKILLS

Languages: Java, Python, JavaScript, C, Swift, HTML/CSS

Tool & Technologies: GitHub, AWS, PyCharm, Linux, Spring Boot, Bootstrap, VS Code, Xcode, React.js, Vercel

PROJECTS

Frontend Developer, Meetitude: Event Planner Application (<https://meetitude.com>)

- **Designed and developed** a fully responsive front-end, making event scheduling and task management more efficient for **200+ users**. (JavaScript, Bootstrap, CSS)
- **Designed an intuitive UI with animations**, creating an **engaging, structured, and interactive experience**.

Developer, Portfolio Website (<https://keyshawnjeannot.com>)

- **Built and deployed** a professional portfolio to **showcase 5+ projects**, making it easy for recruiters to explore my work. (*React.js, Bootstrap, Framer Motion, Vercel*)
- **Implemented accessibility improvements**, ensuring **smooth navigation for 100% of visitors** across different devices.
- **Designed an intuitive UI with animations**, creating an **engaging, structured, and interactive experience**.

WORK EXPERIENCE

Help Desk Engineer Intern, University of Massachusetts Boston IT Department **December 2024 – Present**

- **Provided** technical support to **50+ students and faculty**, troubleshooting **software, network, and system issues** with a **90% resolution success rate**. (*Windows, macOS, Linux, Terminal, PowerShell*)
- **Managed and maintained** hardware and software inventory, ensuring **100% accuracy in asset tracking**.

Freelance Developer, Company Name **December 2024 – Present**

- **Designed, developed, and deployed 3+ websites**, ensuring **mobile responsiveness and seamless user experience**. (*HTML, CSS, JavaScript, React.js, Node.js*)
- **Optimized performance and accessibility**, reducing load times and ensuring **100% smooth navigation across devices**.

EDUCATION

Bachelor of Arts, Computer Science, University of Massachusetts Boston

- **Relevant Coursework:** Introduction to Computing, Intermediate Computing with Data Structures and Algorithm, Programming C, Applied Discrete Mathematics, Calculus I

Leadership

President, National Society of Black Engineers **December 2024 – Present**

- **Reactivated the chapter** after two years, rebuilding its presence and increasing membership more than **200%**.
- **Implemented a structured meeting format**, leading to **higher attendance and increased member engagement**.
- **Organized STEM workshops and networking events**
